Did you know...

Flint Hill students attend Technology class each week? Our Tech teachers are Mrs. Jamieson, Mrs. Grau, and Mrs. Sweeso. The goal in technology class is for each child to develop skills in utilizing basic computer applications, understand rights and responsibilities when navigating the digital world, practice beginning coding skills, and connect to the world outside the classroom in the form of global collaboration. We will be covering the following units/strands: Keyboarding, Digital Citizenship, Google Applications (Docs, Slides, Sheets, Sites, Drawings), and Coding. The second half of the year is focused on digital creation using programs like WeVideo for the older students and Google Slides and Google Drawings for the younger students. We will begin our coding unit in the fourth quarter. By the time our students attend middle school they will be prepared for the 1-to-1 initiative, which puts Chromebooks into the hands of all students.

Thank you to Mrs. Jamieson for this information.

Our Firebirds are busy learning every day! This week we will take some time on Early Release Day to celebrate Black History Month. Students will be learning about famous African Americans, their contributions, inventions, and innovations. Throughout the month we will have music from different African American artists highlighted during our "song of the day" during lunch.
